DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Watson on August 28, 2007.

The application has been amended as follows:

In the specification, page 1, delete paragraph [0001], and add new paragraph [0001] in its place as follows: "The present application is related to the commonly assigned application entitled "Method and apparatus for storing image data using an MCU buffer" filed 6/25/2004, and assigned Serial Number 10/876,966 (Attorney docket no. VP090), which is incorporated herein by reference in its entirety."

Allowable Subject Matter

1. Claims 1-7 and 9-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-7, and 9-15 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "a color space converter that receives the resizer data and converts the resizer data into converted data described in a second color space using a clock frequency of f/n , where n is an integer; and a display unit interface that receives the converted

Art Unit: 2629

data from the color space converter and that outputs display data described in the second color space to the display unit using a clock frequency of Nf , where N is an integer". In claims 9 and 15, "converting the resized color data from the first color space to a second color space and outputting converted color data using a clock frequency of f/n , where n is an integer; and receiving the converted color data and outputting color display data to the display unit using a clock frequency of Nf , where N is an integer". The prior art of record however singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricardo L. Osorio whose telephone number is 571-272-7676. The examiner can normally be reached on Monday through Thursday from 7:00 A.M. to 5:30 P.M. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin Shalwala whose telephone number is 571-272-7681.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231
